File Contents

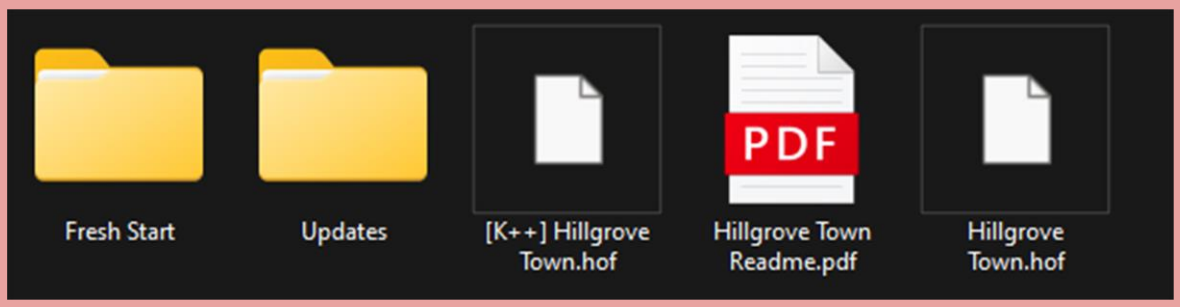
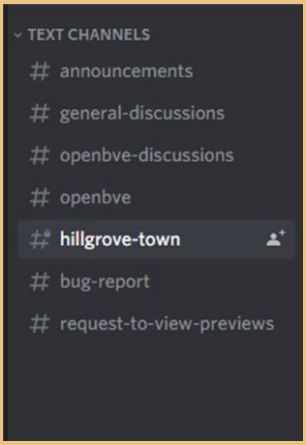
Package consists of:



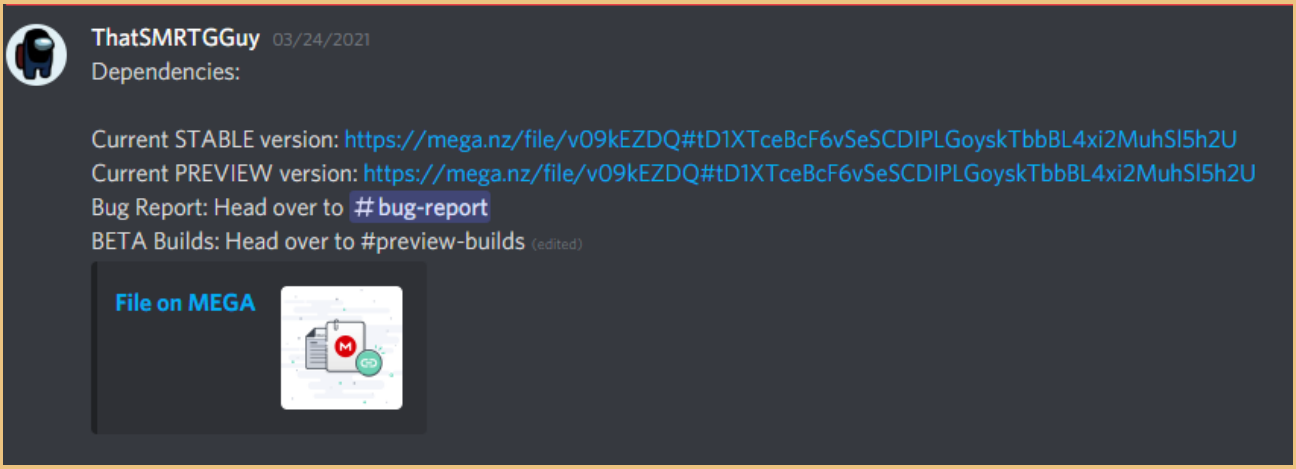
- **Fresh Start – Consists of everything you need for the map to work**
- **Updates – Consists of files that got updated**
- **2 Hof Files – [K++] Hillgrove Town & Hillgrove Town**
- **Readme PDF (this)**

Setting Up Guide

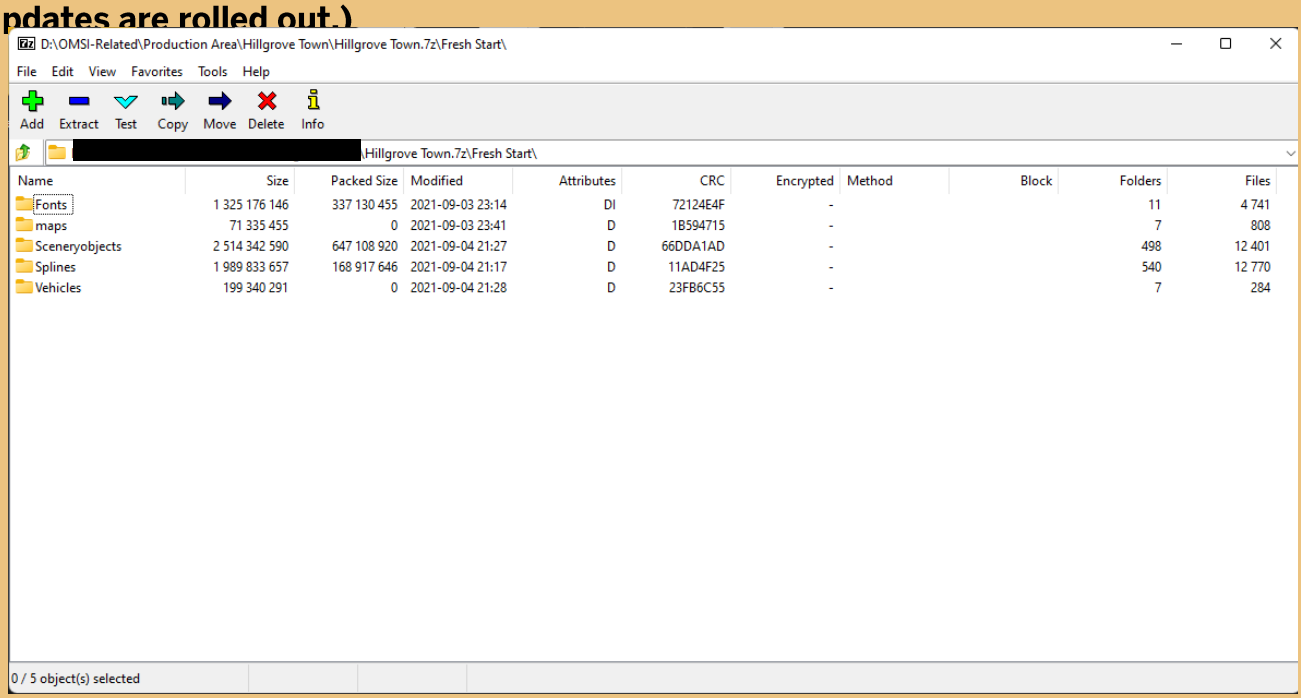
Step 1 – Download the files via Discord. Accept the Invitation (if this is your first time), and navigate to #hillgrove-town

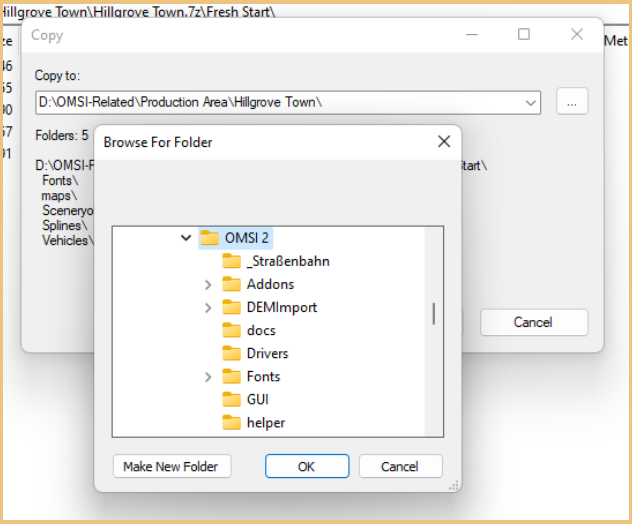


Step 2 – If you intend to use the Stable Version, simply click the link to download the files. However, if you intend to use the Preview Version, you'll need to request to join the preview. Alternatively, you can use Github.



Step 3 – Once download, open the 7z file. You'll need 7-Zip to open the files. Navigate to the Fresh Start Folder (Updates Folder is only applicable once updates are rolled out.)

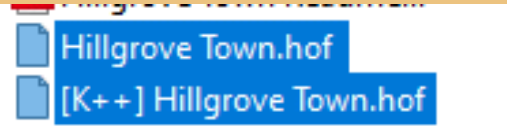




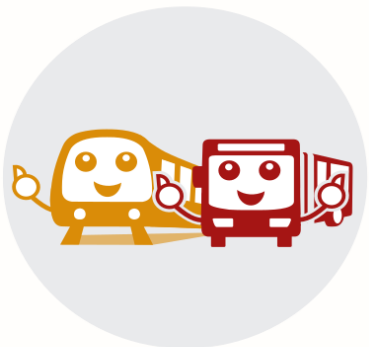
Step 4 – Extract it to your directory. If prompted to overwrite, select Yes to All.

Step 5 – Navigate back to the main directory of the 7-zip file. Then select the type of HOF you want, into your own vehicle (...\Vehicles\<your bus>).

(Hillgrove Town.hof > Non-Krueger, [K++] Hillgrove Town.hof > Krueger



Agreements

What you'll agree to


Please do not distribute this elsewhere. SMRTG Studios have worked hard on it. If you've made any modifications to the map, it is advisable to keep it to yourself. Do not release your modified work and call it your own.
